BELLEVILLE, SATURDAY, MAY 3.

WHO FURNISHED THE MONEY.

The effort to bribe members of the Ontario Legislature, or rather the late bribe of members of the Ontario Legislature, has again been occupying public attention, owing to the grand jury having decided that the accused should be tried, and the demand for the indictment offered in their behalf. No case for a recent doublet that McKim and the rest of the gang willingly yielded to the fascinations of the golden web, but, finding that the whole gang was a put-up job, they were party, they played the part of pursuers to save themselves. At the time that the revelation was first made the country was thunderstruck at the inquiry, yet in the Globe there was such a tone of usual vindictive feeling against McKim and Kirkland, such an outcry against McKim and McKim, such a cry of "stop this," such a longing to Ottawa for a solution of the problem of who furnished the money, that the grand jury began to ask themselves if the whole affair was not concocted under McKim, and if the money provided was not furnished from sources known to the grand jury. It was furnished that was Lynch's. The question naturally arose, who was Lynch?

The Globe says he was the agent of the Ottawa Government, but probably the Globe knows who Lynch is better than many do. It would only tell the truth, for Lynch was with Wilkinson when promises were made to McKim and others. The Ontario Government knew that these agents were going on, and knowing as much as they did, thinking that the public ask why was not Lynch arrested along with the others? Wilkinson and Kirkland were under the eyes of a detective all day Monday—the day of the arrest—but all this innocent-looking man at Toronto never thought of placing Lynch under the surveillance of a detective. No, he was allowed to go, and the allegation was made that he was the agent of the Government at Ottawa, in the expectation that the public would be misled, and be induced to side with that honest and upright Government, the Ministers of which sent agents to Mr. Bunting to endeavor to entrap him into offering bribes to members of the Legislature. On the evening of the arrest, that agent Lynch, Wilkinson's agent at the time, looking nervous and excited, and he asked Wilkinson to remain in his room until 10 o'clock, when he would return, as he had an engagement for the night. Lynch never returned, but about 8 o'clock the detective, Mr. Wilkinson, showing plainly the hand that Lynch was playing in this deep laid scheme—a scheme that has its sequel in the so-called attempt to blow up the Parliament buildings at Ottawa. The plot was foiled in the first instance, and are now so bold as to believe that this last device, which was telegraphed immediately to all the first papers in Canada, and the history of which was told in the usual manner by the *Globe*, is other than a poor attempt to gain sympathy for the late waning *Globe* cause in Ontario.

Should the case ever come to trial, it may be found out that Lynch is not of the money which he furnished care, but not in all probability, otherwise, unless the Royal Commission should develop the true inwardness of the affair.

As for the imports, the decrease is a sign of one thing, viz., that we are over-producing, to a certain extent, because of over-production. The diminution in the imports and the reduced output in certain of the most important branches of the manufacturing and commercial life of the country. This is evidenced from the fact that instead of the operations (export and import) of the nine months just passed being up with an outside balance against us of \$21,000,000, the operations of the nine months of the previous year, we have now only 12½ millions against us. We have in fact nearly nine and a half millions loss to pay to the outside community for our goods than we have for the same period of the nine months ended March 31, 1883. If we had had a good harvest and maintained our imports the same as they actually have been, we should have had only about six millions against us as compared with nearly twenty-two millions same period last year.

Formerly in bad harvest years the balance against us was not so great, and of good harvest years, so far as the nine months' record is an indicator, the balance against us has decreased.

Under the present fiscal policy, then, we find that just when it is a boon, not to be measured, to have a diminished amount of pay abroad, we better than we were under the Mackenzie regime. They are better than the fact years of the old trade policy, in so far as outside indebtedness is concerned.

Trade of the Dominion.

The Bearing of the Returns of Exports and Imports.

ADVANTAGES OF OUR FISCAL POLICY.

(From the Mail's Correspondent.)

Ottawa, May 2.—The declaration of the trade of Canada is a subject upon which the Opposition delight to dwell, and yet they reviewed the question in the light of the fact that they would refrain from dancing over the declaration as an indication of the decline of prosperity. It depends altogether upon the cause which have produced the diminution. In the individual weight it is not always a sign of harm. Sometimes indeed complacency is an indicator of disaster.

UNDER OUR PRESENT TARIFF it was distinctly stated that the first results would be those of import. This prophecy was fulfilled. There were increased imports, and the Opposition at once cried out, "Where is your National Policy?" But they soon saw their mistake when the returns of the Customs Department came to be analyzed, and it was seen that the increased imports were caused by the large quantities of machinery imported by the various manufacturing industries. After that they wisely refrained from jubilation over the weakness of the N. P. to prevent importations. They saw it was not weak but strong, and that it was induced by the Ontario and the Customs. It was also prophesied by the friends of the protective policy that its application to the trade of Canada would, after a time, diminish imports. A full supply of machinery could in a few years, so owned by the country. The ability to manufacture our own machinery would grow apace. The ability to manufacture our own goods would be developed, and thus would come the time of increased imports. That time has arrived. We may measure it from the record of receipts contained in the Customs returns of the nine months of the present fiscal year compared with the returns of the same period in last fiscal year.

During the nine months of the present fiscal year the returns show that the value of our imports is in round numbers \$12,400,000 less than in the nine months ending March 31, 1883. The returns also show that the value of our exports is in round numbers \$12,400,000 more than in the nine months ending March 31, 1883. ODDFELLOWSHIP.

Of the 41 grand masters of Missouri, 23

are still living.

California is the banner jurisdiction for

Oddfellowship.

The lodges of Indianapolis contributed

\$1,000 to the Lawrenceburg, Ohio, Odd-

fellowship to suffer from the flood.

There are 4,423 Oddfellows in Nebraska,

being a gain of 341 the past year.

The amount paid for relief was \$3,810.62.

The Oddfellows' Benevolent Association

of Ohio has a membership of more than

10,000, and a surplus fund of \$125,000.

One of the earliest secret societies was

that instituted by Jonathan and his

followers, and the consequent result was

the establishment of the Oddfellowship.

It was founded in 1840, and has since

been growing rapidly.

THE LAZIER MURDER.

THE PRISONERS ON TRIAL.

Report of the Evidence.

DAVID LOUDER ACQUITTED.

(From our Own Reporter.)

THIRD DAY.

Perry, May 8th, 1884.

The Jury filed into Court at 9:30 this

morning, and the room at that time was

filled with an intelligent looking crowd.

"Keep quiet," called the officers from

the gallery, as the court at 9:30. "Bring up

the prisoners," said the sheriff, and then

Mrs. Tompsett and her child, and Tompsett's

sister took their seats near the dock.

Tompsett, when he took his seat, shook

heads with them.

F. G. McDonald sworn, and corroborated

previous evidence as to the tracks.

M. R. Cole testified to a similar effect, as

did the Rev. W. T. Talbot, Wm. H. Lander

and Edward Scott.

Perry, May 8th, 1884.

Before the Court adjourned this afternoon,

Alfred Hicks testified that Tompsett

visited his house on the night of the murder;

he asked if Hicks would give him a ride,

which Hicks replied in the affirmative.

Abels Hicks, wife of the last witness,

gave evidence to the effect that Tompsett

was at her house at 10 minutes to eleven

o'clock on the night of the murder; there

was no one on the premises.

George H. Pope, sworn, said he lived in

Belleville; deceased and married sister, his

family consists of his wife and a boy; I

was the murderer on Saturday following

the murder; I informed his wife of the

fact, and drove to Gilbert Jones' that day;

Chief McKinnon, and Mrs. Lander and the

boy came with us; the Coroner's inquest

was in session at Bloomfield; Tompsett

and David Louder were then in charge in

the Town Hall; Chief McKinnon

asked for their boots, and got them; I

recognized the boots that were taken

from Tompsett's feet as those produced;

Brown's school and an about ten years

old; I saw Ernest Cooper find a cylinder

he took it to the floor of a cylinder

was found in a field near the school

cross-road leading to the bank; it

was found near a tree; it is a long distance

from Louder's house to the place where

the cylinder was found.

Ernest Cooper sworn, said—Near the

school house one day I found the front

part of a revolver; it was in the rear near

the school; it was about two feet under the

bridge; I found the other part in a field;

the cylinder and handle were found on the

same day; I found them on the road lead-

ing to Louder's.

Nothing was elicited during the cross

examination.

William L. Peters sworn, said, I live in

Amherstburg; I first met Tompsett at King

ston station on the 15th of November last;

we came up together; we talked about fire-

arms, hunting, fishing, etc. He said he had

a 32 calibre revolver; he showed it to me

on the way; we went down to the ferry

landing at Belleville about nine o'clock,

but could not get across; he took out a

revolver and went into a house after a dog;

the revolver was brighter than the one pre-

sented and was the same sized revolver; it

was very nicely finished.

(This is now matter, said Mr. McCarthy,

and we were not prepared for it. He ap-

proached the prisoner's dock and while

speaking to Tompsett, the latter's sister

fainted and was taken from the room.)

Cross-examined.—The conversation about

the revolver arose out of a statement made

by Tompsett stating that, when in New

York, his room door was opened and he

drew his revolver; the person who opened

the door made a mistake; I do not remem-

ber the kind of a handle on the revolver

Tompsett had; after the first examination

I spoke to some persons about the murder;

I was shown the revolver yesterday at the

hotel; the revolver I saw was a highly fin-

ished one; I had heard that the revolver

that was found was a 32 calibre. (This wit-

ness and Mr. McCarthy had a little con-

trover, which varied the monitory for a

time, and caused the Sheriff to say that he

would clear the room if the noise did not

cease.)

Hicks, sworn, said—I live on the

West Lake shore, and know Tompsett; he

rode with me towards Gilbert Jones' house;

in conversation he said, in passing Jones,

that Jones was better off than he and it

would be no knock to save him out of his

way.

Cross-examined by Mr. Dickson.—I have

known the Louder family for 12 or 15 years;

the boys are about of a size.

Mrs. Phoebe Cunningham, sworn, said—I

live in Hilltop, 7 miles from Belleville;

I know Tompsett; he was at my house last

fall; I had a conversation with him in the

name of Gilbert Jones was mentioned;

designer for which was \$10,000 by \$10.

season, and will be another nut for the

sheep dog to catch.

Household Hints.

The following hints are given for getting

rid of household pests.—Rats are said to

have such a dislike to poison that if it is

powdered and scattered around their haunts

they will leave them. A pint of castor oil

is a capital thing to put into rat or mice holes,

as they will not attempt to eat it. A plug

of wool covered with a piece of flannel so

prepared may be used to stop the holes.

Cockroaches and ants have a similar dislike

to cayenne, and a little strewn about a

cellar will keep it clear of them.

The Tupper Baquet.

Magnificent Entertainment in the Re-

giment.

The banquet to Sir Charles Tupper to-

night was very largely attended by distin-

guished members of the Conservative party.

Mr. D. O'Connor presided. Letters of

welcome were read from Mr. Alex. Camp-

bell and Hon. Messrs. Russell and Mac-

pherson. Addresses were presented to Sir

Charles on behalf of the Conservative As-

sociation of Ottawa and the cattle dealers

of Montreal.

In response to the toast of his health,

Sir Charles Tupper paid a warm tribute to

Sir John Macdonald, to whom, he said,

Canada owed all the progress and prosper-

ity of the last few years.

He was proud of the part he had taken in

the Pacific Scandal crisis of 1873. The people

of Quebec, he said, had most thorough-

ly and intimately known his character, and

had kept him in Parliament for twenty-

nine consecutive years, and he read a tele-

gram in the name of the council of that

county in majority of that body being (Re-

formers) expressing regret at his retire-

ment. His aim had always been to

advance the interests of his country. He

had striven with all his power

to bring about the Confederation of the

Provinces without regard to the effect of

that measure upon his personal popularity.

To-day he had the satisfaction of knowing

that he had the support of fifteen out of

the twenty-one representatives of that Pro-

vince in the House of Commons. Never

in the history of the world had a country

made such strides from a state of comparative

ignorance to one of greatness, as

British North America has since 1867. The

constitution arranged at the Quebec Con-

ference had shown fewer defects and less

futility in operation than any constitution

that had ever been framed.

The progress of the country showed

that our people were making sub-

Belleville.

The dredge has been doing a good
work in clearing up along the front of the
wharves, where digging had formerly been
done, and dredging from Carter's boat
down, up to the foot of Dundas Street,
where a depth of 8 feet has been obtained.
In no place was there less than 7 ft. 3 in.
of water, which induces the hope that, ere
long, the ferry may be run to the foot of
Dundas Street. Waiting John Thompson,
the boy, who owns the vacant lot adjoining the
ferry slip at Dundas Street, to erect a
wharf on his property, it would be quite
possible for the ferry to land at the foot of
Dundas Street. It is to be hoped that this idea will be
carried out. The boat at the foot of Dundas
Street will be a great accommodation to the
stoma yachts and other craft.

POLICE COURT.
This morning the Police Magistrate and
Ald. Pease occupied seats on the bench and
heard the adjourned case of Frank Lee,
of the accused Helen Lee, and Mrs. Lee,
Elizabeth Baskett and Mr. and Mrs. Lee,
and Densbury of having robbed him of a
watch and chain, which he had lost.

He got drunk and wandered towards
Bleeker Street, where he was taken to
prison, and was thrown out. He then
met Mrs. Densbury, whom he asked to
leave his house, which she did. He remained
there for several hours and avers that
his property was then taken from him.
The case was adjourned to to-morrow.

My customers that ordered fish for Fri-
day did not receive them, I must ever
their indulgence for this time, as my supply
did not arrive. I will see it not occur
again.—L. TAYLOR, JR.

An old Frenchman who drove to Mar-
mor with a force of men to work on the
Trent River drive, returned to Trenton
yesterday. While on his way he fell from
his rig and was seriously injured.

It was expected that a conference would
be held yesterday afternoon between the
members of the Ferry Committee and Mr.
E. W. Rathbun, but the meeting did not
take place, as Mr. R. was not able to leave
home at noon.

CONTRIBUTORS TO THE ALBION EVANGELI-
CAL AND SPIRITUAL POLICE PATROL Mission to
the Canadian Pacific railroad men and lum-
bermen should be sent to Mr. George Bus-
in, Toronto. Mr. B. has been engaged in
this work for some time and his labors have
elicited general commendation.

We are pleased to know that the sugges-
tion presented in the INTELLIGENCER with
regard to the dredging of channels through
the ice on the west side of the light house
has had the desired effect, and as soon as
the little extra work in the harbor is com-
pleted work will be begun on the channel re-
ferred to.

Last night the weather was cooler than
yesterday. The breeze was strong and
there was ice on the crossings and side-
walks at two o'clock this morning, and Mr.
Gilroy, of Thompson's, states that while
driving along the road to the city shortly
after four o'clock, he passed through a
snow storm.

At the meeting of the Chartered accountants
of Ontario, at Toronto yesterday, the following
motion by J. W. Johnson, principal of the On-
tario Business College, Belleville, and seconded
by J. W. Fidler, was carried:—"That it be
a great public advantage that there should
be a responsible body to examine candidates
as to their competency in the science and prac-
tice of accounts."

It is with pleasure we record the fact of
the success of Mr. D. K. McKinnon, who
passed his final examination with honors
before the Law Society in Toronto yester-
day. Mr. McK. has undergone three
examinations and on each occasion has
obtained the gold medal. This young gentle-
man, who studied in the office of Mr. C.
W. Bell, is the most successful student that
Belleville has ever presented before the
Law Society.

Active in the Rev. Dr. Jeffers will retire
from the active work of the ministry at the
close of the expiring conference year, the
Christian people of all denominations in
Belleville will be glad to learn that they
will not thereby be deprived of the pleasure
of listening at least occasionally to the
learned, able and eloquent minister, whose
tongue and pen have done service of in-
calculable value to the cause of Christ in
Canada during the past fifty years.

After half a century, as we have said, of contin-
uous labor, the venerable Dr. Jeffers has
retired from the active work of the ministry,
but, having bought a residence on Charles
Street in this city, he will pass the remainder
of his days in Belleville, and will occasion-
ally officiate in the Methodist Churches
here. We make this announcement with
great pleasure, and feel satisfied that it
will be equally pleasing to our readers.

WEDNESDAY, MAY 20, 1884.

LEGAL HOLIDAYS.

OFFICE HOURS OF THE DIFFERENT PUBLIC OFFICERS OF THE PROVINCE.

Every Sheriff shall, each day, (holidays excepted) keep his office open from ten o'clock in the forenoon until four o'clock in the afternoon, and during that time he shall receive all business for the day.

The Registrar or his deputy shall, for the discharge of all duties belonging to his office, attend at his office from ten o'clock in the forenoon until four o'clock in the afternoon, every day in the year (holidays excepted)—20th Vic. C. 25, S. 1; 30th Vic. C. 7, S. 2, Sec. 2.

PROSECUTORS' OFFICES.

No other employed in the collection of the Provincial Revenue shall be required to keep his office open on any holiday, that is to say on the several days mentioned in R. S. O. 1, Sec. 1, and in the Act.

COUNTY CLERK'S OFFICE.

Every county clerk shall keep his office open for the transaction of business on every day (holidays excepted) and except as hereinafter provided, from ten o'clock in the forenoon until four o'clock in the afternoon, on the first day of September, and on and between the 24th day of December and the 24th day of January from ten in the forenoon until noon, and during the statutory sittings of the Court such clerk shall keep his office open from ten in the forenoon until four in the afternoon.

DEPUTY CLERK OF THE COURT.

Except between the 1st day of July and the first day of September, every Deputy Clerk's office shall be kept open from ten o'clock in the forenoon until three o'clock in the afternoon (holidays excepted), and between the first day of July and the first day of September, from the hour of nine in the morning until noon. By Statute and Rules of Court.

No particular time is fixed for keeping open the office of the Clerk or Registrar of the Superior Court, or the Clerk of the Peace or County Attorney.

The Interpretation Act of the Province of Ontario, revised statutes, chap. 1, sec. 16, reads: "Every day that is a holiday, namely, New Year's Day, Good Friday, Easter Monday, and Christmas day, and days appointed for the celebration of the birthday of Her Majesty, and any day appointed by proclamation of the Governor-General or Lieutenant-Governor as a public holiday or for general fast or thanksgiving."

The above times apply to all the Courts in Ontario.

By sec. 8, 20th Vic. (1872), as amended by 42nd Vic. chap. 47, and by 40th Vic. chap. 20, S. 1, (1882), it is enacted: "That the following and no others shall be observed as legal holidays, or non-judicial days: Sundays, New Year's Day, Good Friday, Easter Monday, Easter Tuesday, Dominion Day, the birthday (or the day appointed for the celebration of the birthday) of the reigning Sovereign, and any day appointed by proclamation of the Lieutenant-Governor of the Province for a public holiday or for general fast or general thanksgiving."

It is noticeable that the Lieutenant-Governor is empowered to appoint the day for a fast or thanksgiving to be observed by the public officials in this Province.

CUSTOMS, INLAND REVENUE, REVENUE AND POST OFFICES.

By Act Vic. cap. 7, sec. 1 and 10 (1878), "no day shall be kept as a public holiday by the officers and persons employed in the management and collection of the revenue, except Christmas day, New Year's day, and Good Friday in every year, and any day appointed by proclamation of the Governor for the purpose of a general fast or a general thanksgiving, and any other day appointed by proclamation of the Governor for the purpose of a general fast or a general thanksgiving."

The other statutory holidays for Dominion officials are given by the Interpretation Act of the Dominion, 31st Vic. cap. 1, sec. 7, (1887), and in the Act, added to the foregoing, viz. the "Epiphany, the Ascension, the Assumption, Corpus Christi, St. Peter and St. Paul's day, All Saints' day, Conception day, Easter Monday, and Ash Wednesday."

It must be remembered that the Dominion Interpretation Act does not apply in respect to holidays to officials appointed by the Ontario Government, such as County Court Clerks, District Clerks, the Attorney-General, the Registrar, the Registrar-General, the Sheriff, &c. The holidays for these officials are given by the Interpretation Act, Revised Statutes of Ontario. It is often said, because some officials, such as the Sheriff, the Registrar, and the Registrar-General, are closed on statutory holidays under the Do-

minion Acts, and the offices of the Courts, Sheriffs and Registrars are not closed on the same day, that there is something wrong about it. This is a mistake. There is nothing wrong in or out of the Dominion Act, and the different Acts giving holidays to each class of officials are as plain as possible, and only require to be read to be understood. Misunderstanding owing to ignorance of which Statute or rules governs each class of officials is no reason for the different regulations mentioned that the law is confusing, or that this or that office is improperly closed.

By the Postal Act the Post Office is to be closed in Ontario on the holidays mentioned in the Interpretation Act, subject to the contrary by the Post Master General, and opened and closed each jurisdiction day at the hour, as directed by the Post Master General.

It will be observed, therefore, that the writer of "Fair Play" published in Saturday's Mail, would restrict the employees of the Customs, Inland Revenue and Postal Departments to a less number of legal holidays than they are entitled to. He also states that the day of the birth of the Queen must be celebrated on that day and no other. Why that day of the week of the birth of the Queen is only kept on the actual day of the week of her birth once in eight years, and by the foregoing enactment it will be observed that the Queen's birthday may be proclaimed on any day, the Governor, at the request of the Queen for certain good reasons, as appears by the Statute of the Queen's Birthday, appointed the 28th June for the celebration of the Queen's birthday. It follows that, as by statute all public offices shall be closed on the 24th inst., and that by royal proclamation such offices shall be closed on the 28th June, an additional holiday is given to the Queen's officials.

Bill Nye Threw for the Copper.

Bill Nye: "Did you go into the side

show? I asked of the contraband at

Greely, Colorado.

No, I studied the oil-paintings on

the outside, but I didn't go in. I just

handsome-looking man there near the

show, though that seemed to take in

interest in me. There was a lottery along

with the show and he wanted me to go

there for him."

Copper, probably?

Yes, yes. Anyhow he gave me \$1 and

told me to go and throw for him."

Why didn't he throw for himself?

He said he knew me, knew him

and wouldn't let him throw.

Of course. Same old story. He saw

you were a copper and he wanted to

him. He stood in with the gang, so

you drew a big prize for the copper, created

a big excitement, and you and the crowd

sailed in and lost all the money you had.

I'll bet he was a man with a velvet coat

and a mustache-dressed in black and

sharp as a canonic needle.

You're a description to a dot. I

wonder if he really did have a velvet

coat.

Tell me about it.

I'll tell you. It was as if it were

good and new, and you saw it in the

future. You saw this copper, as you call

him, \$1 bill, he threw for him and I

put it in my pocket, so, along with the \$1

that father gave me. I always carry my

money in my right hand pocket. Well,

I sailed up to the game as he was

himself, and put a dollar into the game.

Now, I'll tell you, I won \$100 and

a silver cup. The man offered me \$5 for

the cup and I took it.

Then I dashed over my mind that I

might have got my dollar and the other

half's worth, so I says to the proprietor,

I will invest a dollar for a prop who

asked me to draw for him."

Therewith I took out the other dollar,

and I'll tell you, I drew a big prize

draw a big prize worth about two bits

a bit.

I did not say anything for a long time.

Then I asked him how the copper acted

when he got his brass bucket and

grinned and he asked me if I

hadn't told me to go away into a quiet place

where we could talk it over by ourselves.

But he had a kind of cruel, insistent look

in his eyes and I said, I believe I didn't

and that I was a poor fellow. He

looked at me and I saw a copper and

left him looking at his brass bucket

and I will invest a dollar for a prop who

BELLEVILLE, FRIDAY, MAY 23

MERE MENTION.

Two arrests were made last night.

The weather this morning was quite

summer like.

A meeting of the Hastings Rifle Associa-

tion will be held to-night at Hamby's.

The members of the Belleville Quoit

Club should take the sphere this afternoon.

A large consignment of crutches was re-

ceived here to-day by a prominent druggist.

A letter from Dr. James on the water

question has been crowded out of to-day's

issue.

A tramp felt dead the other day while

sawing wood. This is an awful warning

to other tramps.

The 18th Batt. A. L. I. will make a church

parade on Sunday next. The band of the

regiment will lead them.

The Eagle Mill broke down this morning

and the necessary repairs cannot be com-

pleted before Tuesday next.

COURTNEY silver dollars are in cir-

culation. They are a little darker in color

than the genuine, and bear the date of

1883.

MERCHANTS will do well to note that the

note to-morrow or Monday are Bank hol-

days, so that paper due to-morrow or Mon-

day will require to be provided for.

The medals which are to be given to the

successful competitors in the bicycle con-

tests on Monday are most complete, and

will be on exhibition to-morrow at Span-

glenberg's store.

The Open House has been placed at the

disposal of the Teachers' Association for

the lecture of Dr. DeGraft, free of charge.

This shows a commendable liberality on

the part of the Open House Company.

The Minnie A. will be disposed of by lot

on Wednesday evening, June 25th. The

yacht is strongly built, is well rigged, is a

good and speedy craft, and a good gatherer

will be the possessor of a valuable boat.

The Whig says:—The Rev. Mr.

Fomen has not visited Kingston in vain.

Subscriptions to the amount of \$400 to the

memorial church at Adolphus have been

tendered him, and he will receive as much

more.

At Toronto on Thursday in the slender

case of Stock v. Doreen, in which a verdict

was given at the late session for the defend-

ant, Walter Head moved for an order nisi

to set aside the verdict and for a new trial.

Stands for evidence to be put in.

Next Sunday the Halliwell Band will

visit Bethel Church, now going to Central

Church. On Saturday the Queen's Birth-

day will be celebrated in Franklin by three

Gospel services, and they will conduct a

service (D. V.) in University Church to-

night.

Another landmark is gone. One half

of the gigantic old tree, which from the

days of the first settlers in this vicinity

overshadowed the town (Trent) Road,

fell yesterday in perfectly calm weather,

crashing heavily and trees and sidewalks on

one opposite side of the road in its descent.

Traffic was not stopped, however, as the

branches which sustained the trunk were

so large as to allow carriage to drive under

it, and between them. The roots of the

tree, which stood on the farm of Mr. James

Penton, have been traced 100 feet distant

in one direction.

Weather Probabilities.

Toronto, May 23.—Lakes, wind, shift-

ing to south and southwest, generally fair

warmer weather, with showers or thunder

storms in some localities.

Daily Intelligence.

ODD FELLOWSHIP.

The total available assets of the Odd Fellows of the Grand Lodge of Ontario, for the year ending 1883, were \$19,004.37.

John Nicholson, of Belleville, Ont., has been an Odd Fellow 35 years. Meritorious, of course, and we feel sure that he will pay large dividends, both during the present, and particularly later in life.

P. G. M. Edw. H. Murphy, Grand Representative to the Southern Grand Lodge, from Belleville, Ont., has been elected in his last term. He has been sick but a few days.

In Massachusetts 26 Lodges of the D. of R. have adopted the petition to the Grand Lodge for increased power, and another has presented a petition of its own. Eight of the petitions contain the signature of every member of the respective Lodges, and will contain the signatures of the Noble Grand and Secretary.

An exchange says that a custom is in vogue in some of the Lodges in the District of Columbia, which is in fact a custom adopted in other jurisdictions. A candidate for the initiatory degree, after having received it, is obliged to maintain and read in open Lodge the unwritten work of the initiatory degree before he can receive the next degree. That of the degree of F. before he can be initiated into the degree of L., and that of the last named before having conferred upon him the degree of T. This is a simple thing to accomplish, and will result in great good for the Lodge should be generally adopted.

There are 16,000 Odd Fellows in Michigan, and 4,000 in Nebraska.

The session of the Grand Lodge held in San Francisco Tuesday, May 13th, was the annual communication of that Grand body.

Lodge No. 1,000 will soon be instituted in Philadelphia. About 60 names are on the application, all under 30 years of age.

Good Old Earth.

To some very good souls Old Earth is a very good thing. They cannot view it with any degree of complacency or consideration. It is a secret, and a secret is a secret, and a secret is a secret.

All this, however, though unimportant, is a very good thing. They cannot view it with any degree of complacency or consideration. It is a secret, and a secret is a secret, and a secret is a secret.
